PROACTIVE AND COST-EFFECTIVE PROPERTY MAINTENANCE

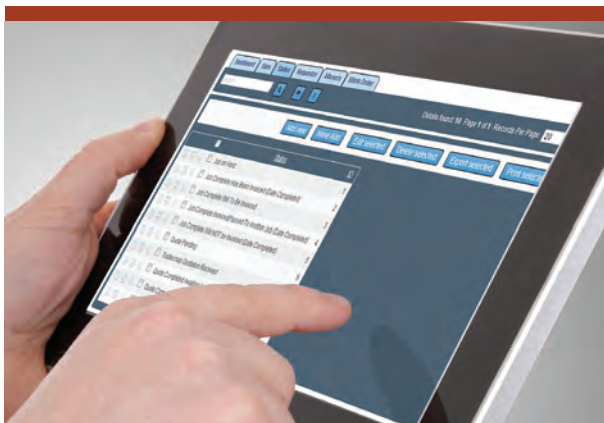

The National Property Coordination team of property professionals brings your organisation more than 70 years combined experience across all aspects of property services.

We aim to augment your existing facilities management team or provide you with a holistic facilities management service. We have the skills to provide new standards in the seamless delivery of programmed property maintenance, 24-hour emergency repairs, reactive property maintenance, building and construction and a whole range of property related services.

Using our unique skills and experience we provide you with a quality service specifically tailored for the not-for-profit sector, incorporating the highest standards of Work Health and Safety and environmental practices, in a timely, cost-effective way.

We take the hard work out of property maintenance, and we deliver.

POWERFUL AND SIMPLE 24-HOUR SYSTEMS AND SERVICE

National Property Coordination provides you with a web based maintenance management platform. This provides easy, password protected access for you to log job requests, track active jobs, control your costs and keep all your facilities maintenance information in one place.

With a dedicated 24 hour emergency service, you can rest assured that we are always at hand to deal quickly and efficiently with property maintenance issues of any and all descriptions.

As a National Property Coordination customer, you gain access to the 24 hour telephone service for you to notify of any emergency incidents that can't wait until morning!

WHO ARE WE?

The National Property Coordination team combines practical experience, industry excellence and proven leadership and a focus on delivery. We are able to set goals and deliver quality outcomes on time and within budget. Our experience extends to working with major institutional and corporate clients and dealing with government agencies at the highest level.

We enjoy a special understanding of the culture and challenges of working with the not-for-profit sector. As a result, we are a uniquely skilled organisation able to provide 24-hour emergency repairs, programmed maintenance and many other property-related services.

Our commitment is to provide you with value for money and quality outcomes designed to relieve your staff of much of the day-to-day oversight and compliance issues that are becoming more prolific in an environment of ever-increasing regulatory requirements.

With our market knowledge, networks of qualified tradesmen ready to deal with your maintenance requirements and consultants offering professional advice in asset valuation, planning, certification and many other property related disciplines, National Property Coordination is perfectly placed to lead the way in the property maintenance industry.

How can we help you?
